

Academic Support for all Monty Tech Students

Beginning September 7, 2021, free after school tutoring sessions will run from 3:00-4:00 pm.

After School Tutors are highly qualified teachers employed at Monty Tech. They are experts in their content area and use data-driven assessment as part of their tutoring practice to identify and address students' skill deficiencies in English, math, and science.

Students will be required to sign in and out of tutoring sessions. The attendance information will be made available to parents and Monty Tech staff. To inquire about a student's participation in after school tutoring, please contact the academic office at extension 5201.
