For the purpose of apportioning assessments levied by the District against the member municipalities, costs shall be divided into two categories: capital costs and operating costs.

(B) Capital Costs

Capital costs shall include all expenses in the nature of capital outlay such as the cost of acquiring land, the cost of constructing, reconstructing and adding to buildings, and the cost of remodeling or making extraordinary repairs to a school building or buildings, including without limitation the cost of the original equipment and furnishings for such buildings or additions, plans, architects' and consultants' fees, grading and other costs incidental to placing school buildings and additions and related premises in operating condition. (D) Capital costs shall be apportioned annually for the ensuing fiscal year on the basis of pupil enrollment as hereinafter defined. For the purposes of this subsection, pupil enrollment shall be defined as the number of pupils residing in a member municipality and enrolled in grades one through twelve, inclusive of any public, private, or parochial school, wherever located. Each member municipality's share of capital costs for each fiscal year shall be determined by computing the ratio which its pupil enrollment on October 1 of the year next preceding the year for which the apportionment is determined bears to the total pupil enrollments from all the member municipalities on the same date.

(E) All operating costs, except those described in subsection IV (F), for every fiscal year shall be apportioned to the member municipalities on the basis of their respective pupil enrollments in the regional district school. Each member municipality's share for each fiscal year shall be determined by computing the ratio which the member municipality's pupil enrollment in the regional district school on October 1 of the year next preceding the year for which the apportionment is determined bears to the total pupil enrollment from all the member municipalities on the same date. In computing the apportionment, the "persons" referred to in subsection IV (F) shall be excluded. In the event that enrollment of pupils in the regional district school has not been accomplished by October 1 of any year, operating costs shall be apportioned on the basis of the number of pupils residing in each member municipality and enrolled in grades one through twelve, inclusive of any public, private or parochial school, wherever located, on October 1 of that year.

(F) i. The phrase "special operating costs" as used herein shall be interpreted to mean all expenses and costs, whether direct or indirect, incurred in operation of any program other than the regular Regional Vocation Technical School program and shall include, but not be limited to, costs of heating, lighting, maintenance, transportation, instruction, supervision, supplies, salaries, wages.

ii. The Committee shall determine the operating costs for each fiscal year of any evening trade extension courses or other types of courses or programs which are offered by the District to persons other than pupils attending the regular day Regional Vocational School. Each member municipality's share of such operating costs shall be determined by computing the ratio which that municipality's enrollment of persons in such courses or programs during that fiscal year for which the apportionment is determined bears to the total enrollment of person in such courses or programs.

iii. The assessment of such special operating costs as so determined shall be separately set forth in each budget so as to be identifiable as such.

(G) Fiscal Year and Times of Payment of Apportioned Costs\*\*

The fiscal year of the District shall be the same as the fiscal period of the member cities and towns as provided by law, and the word calendar year or year as it relates to this Agreement fiscal or budget year shall mean the fiscal year of the District.

Each municipality's quota shall be determined by multiplying such enrollment capacity by a fraction of which the school population of a member municipality on October 1 of the previous year shall be the numerator and the total school population of all the member municipalities on October 1 of such year shall be the denominator. For the purpose of this section, "school population" of a member municipality shall be defined as the number of pupils residing therein who are enrolled in grades one through twelve, inclusive in any public, private, or parochial school wherever located.
